MUSINA LOCAL MUNICIPALITY

OVERSIGHT REPORT 2019/20

CHAIRPERSON'S REMARKS

The South African legislative framework upholds a democratic, consultative, transparent and accountable systems of governance.

Section 4 of the Local Government Municipal Systems Act (MSA) accords rights and duties to municipal councils to govern local government affairs in the best interests of the local community and to provide a system of government that is democratic, accountable and involves the local community.

Whilst section 4 (2) (d) of the Local Government Municipal Systems Act (MSA) affords a responsibility to municipal councils to ensure that municipal services are provided to the local community in a financially and environmentally sustainable manner, chapter 12 of the Local Government Municipal Finance Management Act sets compliance requirements for accountability through amongst others audited reports for each completed financial year.

The reports as referred to in the above paragraph translates to depiction of the health or otherwise of the institution at various levels including governance, financial viability, predetermined objectives, systems, procedures and controls.

The Local Government Municipal Finance Management Act prescribes for the compilation and auditing of Annual Financial Statements (AFS) for the municipality and its entities.

Section 127 of the Local Government Municipal Finance Management Act (MFMA) requires that a mayor of a municipality must within the prescribed period table an annual report detailing performance of a municipality during the preceding financial year, further the section provides compliance requirements to be observed by the accounting officer immediately after the annual report has been tabled.

The report as envisaged in the above paragraph must in all material terms provide a high level qualitative summary of the state of the municipality drawn from various reporting instruments, the reports access to credible information whilst empowering the reader to form an informed opinion of the municipality's achievements, challenges and limitations thereof.

Council has as empowered by section 79 of the Local Government Municipal Structures Act established the Municipal Public Accounts Committee (MPAC) to enhance council oversight on municipal activities.

A developmental local government has to place and embrace accountability, good governance, improved quality of life and pursuant of best interest of the municipality, residence, business and society in general.

By complying with provisions of section 121, 126 and 127 of the Local Government Municipal Finance Management Act (MFMA) Musina Local Municipality has stayed true to its commitment to a transparent and accountable local government institution subscribing to sound financial management practice and performance reporting on designated powers, roles and functions in furtherance of a people centred provision of municipal services.

We are mindful that against a backdrop of a changing environment, limited resources, competing needs & interests, scarcity, general standards of living, evolving compliance requirements and standards at the least the municipality must be in a position to reflect on its year that has been openly with a view to propel ongoing improvements.

Flowing from the support and cooperation of various role players. MPAC is in a position to table to council an oversight report on the Musina Local Municipality 2019/20 Annual Report.

As a collective of the Municipal Public Account Committee we forthrightly note the regression in performance of the municipality in as far as financial management and predetermined objectives as evidenced by the Auditor General's Audit Opinion on the 2019/20 municipal audit.

The above points to concerted efforts of the municipal leadership, administration and the oversight structures in ensuring sound financial management and governance practices and laying a solid base for a clean administration, improved quality of life and level of municipal services.

The delicate self-diagnostic task of objectively reviewing our performance as a municipality through the MPAC process has been made possible by the involvement, participation and support provided of council, the audit committee, Office of Auditor General, SALGA and the provincial department of Cooperative Governance Human Settlement and Traditional Affairs as well as Provincial Treasury.

The guidance and leadership of her worship the honourable Mayor is highly acknowledged, in tabling the 2019/20 annual report the mayor has enabled the municipality to self-reflect, provided a platform for review and entrench accountability in a people centred and driven governance process.

The municipal council's objectives is for a municipal administration that is sound, responsive and provides quality services to our people. The health of the municipal administration has to translate into development of our people, prosperity for residence and business, improved level and quality of services, affordability, transformation of society including economic transformation and long term viability of our institution.

The contribution of all members of Management and officials of the municipality led by the Municipal Manager Mr T.N Tshiwanammbi is noted and appreciated. We call upon this public servants to devote their energies in sustaining the change and continuous improvement trajectory and placing the people first in all their endeavours and interventions.

As the Municipal Public Accounts Committee working together with other oversight committees of council including the Audit Committee and the Financial misconduct Board we committed to follow through and take all steps that within our mandate and terms of reference to facilitate transparency and where needs be implement or direct on consequence management.

I will be failing in my duty if I do not recognise our communities and the traditional authorities for the role they play in making the municipality work towards a better life for all our people. The valued comments and inputs that council has been favoured with continues to focus the agenda of council and giving life to the ideal and constitutional imperative of "the people shall govern".

Equally the business community is acknowledged for their inputs into the local economy and the social pact needed to deliver a municipality capable of providing equitable opportunities for all.

My gratitude goes to members of the Municipal Public Accounts Committee for staying true and resolute to our oversight mandate and discharged with diligence the task at hand. I believe our collective work can be summed up in Robert Green's words ***"The oak that resists the wind loses its branches one by one and with nothing to protect it, the trunk finally snaps. The oak that bends lives longer, its trunk growing wider, its roots deeper and more tenacious" – The 48 Laws of Power***
Success comes when you simply refuse to give up, with goals so strong that obstacles, failure and loss only act as motivation. Feel proud of your achievements, no matter how small they are, and create or renew a spark of determination within yourself so that you continue to work hard.

As I conclude on the 2019/20 Oversight Report I am reminded of the words of Chika Onyeani (Capitalist Nigger) ***"Most of our people go into politics to be their own bosses, rather than going into politics to serve the people"***, I wish as public representatives and public servants we may draw inspiration from this quote as we engage in our quest to better the lives of our people; fight inequality, under development.

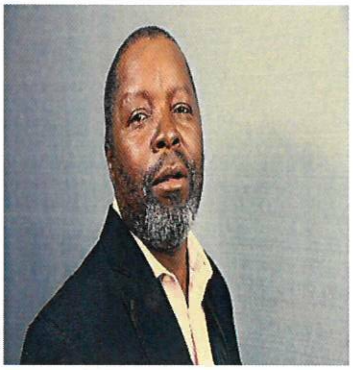

Our people are hopeful that our collective efforts as council and administration will alter whatever their circumstance for the better.

As stated in note 54, these events or conditions, along with the other matters as set forth in the note, indicate that a material uncertainty exists that may cast significant doubt on the municipality's ability to continue as a going concern ***(Recurring matter since 2016/17 financial year).***

This was due to inadequate technical indicator descriptions, proper performance management systems and processes with formal standard operating procedures that predetermined how the achievement would be measured, monitored and reported. The indicators did not relate to the strategic objective, which the Municipality aimed to achieve.

a) Why did the Municipality fail to provide appropriate audit evidence for the different indicators during the audit process?

Proof of evidence for all performance indicators were provide to the AG for auditing purpose. However, it has been acknowledged that information gaps existed in some of the indicators, and, an undertaking to improve on the gaps as identified would be implemented moving forward.

b) Why did the indicators not related to the strategic objective which the Municipality aimed to achieve?

- **During the year under review the municipality has been affected by the cash flow challenge and vacancies rate in critical positions including senior management positions in basic service orientated departments over an extended period which affected the municipal performance.**
- **The Management as a result had no option but to stretch available human capital functionaries who had to assume multiple roles consequentially unreasonably increasing the span of control and inherently impacting on segregation of duty and in-built checks and balances.**
